MEDIPIA

With over 40 years of trusted experience in health screening, we are committed to providing a comfortable and customer-centered checkup experience.

HS_Standard

M/F : 800,000 KRW

-Instruction and Prep

-Required time : 2 to 3 hours

-Prep : Fast for at least 8 hours

Category	Details
Genetic panel – 5 types	Male : Prostate, colon, lung, liver, stomach, pancreas Female : Cervical, breast, thyroid, liver, ovarian
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	Liver function, Hepatitis, Renal function, Gout, Complete Blood Count(CBC), Rheumatoid, Inflammatory Pancreatic function, Diabetes, Anemia, Thyroid, Electrolyte, Cardiac function, Dyslipidemia, Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female))
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

HS_Enhanced

M/F : 1,300,000 KRW

-Instruction and Prep

-Required time : 2 to 3 hours

-Prep : Fast for at least 8 hours

-Info of colonoscopy : Please refer to the separate instructions

-M2-PK : Collect the stool sample using the kit provided the day before and submit it on the day of your checkup

Category	Details
Genetic panel - 10 types	-Male : Prostate, colon, lung, liver, stomach, pancreas, thyroid, kidney, esophagus, biliary tract -Female : Cervical, breast, thyroid, liver, ovarian, endometrial, biliary tract , stomach, colon, pancreatic
Chest(Lung) CT	Detect Lung cancer
Group A (Choose one)	1. Colonoscopy under or without sedation 2. M2-PK 3. 13 types of Heavy metal & Mineral test 4. Echocardiography
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	Liver function, Hepatitis, Renal function, Gout, Complete Blood Count(CBC), Rheumatoid, Inflammatory Pancreatic function, Diabetes, Anemia, Thyroid, Electrolyte, Cardiac function, Dyslipidemia, Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female)
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

HS_Supreme

M: 3,300,000 KRW
F: 3,500,000 KRW

-Instruction and Prep

- Required time : Over 5 hours
- Prep : Fast for at least 8 hours
- Info of colonoscopy : Please refer to the separate instructions
- M2-PK : Collect the stool sample using the kit provided the day before and submit it on the day of your checkup
- PET-CT : Free cancellation up to 3 days before the appointment; a KRW 300,000 penalty will be charged for cancellations made within 2 days of the appointment

Category	Details
PET-CT (Cancer Screening)	Assessment for cancer metastasis (Brain + Torso) *CT Scan is not available with PET-CT
Genetic Panel – 44/45 types	-Male : 44 types -Female : 45 types
Alzheimer’s & Dementia Risk Assessment	Oligomeric Beta-Amyloid (Oligo Aβ) Test
MR (Choose two)	1. Brain 2. C-Spine 3. L-Spine 4. Cerebrovascular MRA
NK Cell Activity test	Natural killer cell / To assess your current immune status
Women exam	Mammography, Pap smear, Breast ultrasound, Masto-check, AMH, ROMA
Group A (Choose one)	1. Colonoscopy under or without sedation 2. M2-PK 3. 13 types of Heavy metal & Mineral test
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid, Echocardiography
